THE FEI CODE OF CONDUCT

FOR THE WELFARE OF THE HORSE

The Fédération Equestre Internationale (FEI) expects all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
2. Horses and competitors must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.
- 5. The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.**

A full copy of this Code can be obtained from the Fédération Equestre Internationale, Avenue de Rumine 37, CH-1005 Lausanne, Switzerland. Telephone: +41 21 310 47 47. The Code is available in English & French. The Code is also available on the FEI's website: www.fei.org.

3. HEALTH REQUIREMENTS FOR THE ENTRY OF HORSES ✓

Entry into Kentucky:

(1) General Requirements:

(a) All horses and other equidae entering Kentucky shall be accompanied by a Certificate of Veterinary Inspection except horses and other equidae purchased at an approved out-of-state horse sale. Certificate shall include all tests that have been conducted as well as all vaccinations including vaccination date and type of vaccine used.

(b) Attached to the Certificate of Veterinary Inspection shall be a copy of a certificate of report from a laboratory approved by the USDA showing the animal(s) to be negative to an AGID test or other USDA approved test for equine infectious anemia.

(c) Horses with evidence of a contagious, infectious or communicable disease or exposure thereto shall not be eligible for entry.

Horses from Texas:

The state of Texas has been affected by the detection of Equine Piroplasmiasis in several counties which has caused increased regulation regarding the transport of horses from this state. Currently, and until further notice, horses arriving to Kentucky and the Park for shows and events from Texas will be required to test negative for "Piro" (Equine Piroplasmiasis/T. equigenitalis). Any horses arriving from Texas without a negative test will be denied entry. All other requirements remain the same in regard to EIA (coggins) and health certificates.

UPDATE: Piro Equine Regulation

Investigations into the occurrence of equine piroplasmiasis, caused by Theileria (babesia) equi, continue and as of June 10 a total of 457 horses have been found positive to T. equi in the United States. In response to this prevalence of disease, the Office of the Kentucky State Veterinarian has implemented the following strategies to mitigate the identified risks:

Entry requirements have been revised to require all Texas resident horses entering Kentucky to be accompanied with a negative test for equine piroplasmiasis (cELISA for T.equi) and to have an Entry Permit issued by the Kentucky Department of Agriculture. The Office of the Kentucky State Veterinarian is continuing to allow the equine piroplasmiasis test to be valid for up to 12 months for entry and is qualifying that horses that have been in Texas less than 30 days are not considered Texas resident equine and can enter or re-enter Kentucky without testing. These revised entry requirements are subject to change as the investigation(s) continues to mature.

Please annex specimen import licences (for Laboratory Health Tests), which will be applied to horses attending this event. In case of doubts or problems, please contact the FEI Veterinary Department as soon as possible.
